Italy	3,403
Australia	2,976
Spain	2,829
United States	2,765
France	2,361
World Total	350,063

* Data include glazed flat-plate and evacuated-tube solar collectors used for residential water and space heating. Unglazed flat-plate collectors, typically used for heating swimming pools, are not included. For more information on these technologies, see the U.S. Department of Energy's "Solar Water Heaters" Web page, at <http://energy.gov/energysaver/articles/solar-water-heaters>.

** The solar heating industry assumes an installed capacity of 0.7 thermal kilowatts per square meter of installed solar collectors.
